| Bennett & Co., Tower Hall, | 513 Market Street. THE KING.

While Europe is in agonies over an embryo king for the Spanish throne, we in this country are making the only "King" we recognize a promoter of peace. We refer to the "King" Washer, which for the time being seems to fill the mechanical and inventive firmament with its giory. This justly celebrated washing machine is appropriately named for a double reason. King is the name of its inventor, but it has claims to this royal title on other grounds. In point of merit it stands supreme above all other washing machines that have ever been invented, It is in fact the monarch of the laundry, before which all preceding inventions of the kind veil their faces and exclaim "undone!" "undone! So literally is this true, that in many cases the owners and venders of the ordinary washing machines are abandoning their own for the purpose of securing an agency for the sale of the "King" Washer. They are wise in this, The laundry is as universal as the paptry and the kitchen, and its complete revolution is a matter that interests the world. The advent of Lucifer Matches and Sewing Machines old not surpass, if they canniled, in Paportance the introduction of this stupendeus labor-saving invention. Its merits can hardly be overestimated. It is easily worked, simple in construction, washes the finest fabrics without infary, and the coersest with as much thoroughness as could possibly be done by hand. Thousands have seen it in operation here and in other cities of the Union, and its performance has yet to elicit the grat objection.

Now we submit that the introduction to the public of the best and cheap of washing machine in the world is no ordinary event. We are glad, therefore, that the honor of doing this has been secured to Philadelphia, the mechanical metropolis of America. A number of our most respectable and enterprising citizens have taken this work in hand as an organzed company. Among them are such well-known names as Mr. H. G. Morris (formerly Morris & Tasker), Mr. William C. Stevenson, Mr. William M. Farr, Mr. John Wanamaker, Mr. R. B. Esjer, and Mr. George H. Brown, who is the President of the company.

A large factory has been established at Ninth street and Washington avenue, for the production of machines at a rapid rate, to meet the demand. This establishment is now temporarily closed for onlargement, the purpose of the company being to assure facilities for the dail; production of one thousand machines if necessary ; and from the systematic efforts now making to introduce the "King" Washer in every State in the Union, it will probably not be long before the steady demand will reach the proposed daily production, as it is the determination of the company to place one of these labor-saving invantions in the house of every well-regulated family in the United States.

ASMANY OF THE COMPLAINTS OF CHILDREN ORIGInate from the irritation and the derangements caused by worms, a remedy that will effectually rid the system of these pests is well calculated to be of great benefit, and to be frequently required in every amily. Dr. D. Jajne's Topic Vermifuge is such a preparation, not only certain to destroy worms, but most e relient for the purposes of a General Tonic, streng! ... ing the stomach and digestion, and dissipating any febrile tendency in the system. In Dyspepsia, young and old will find it equally effective. and, altogether, no remedy of more general application could be kept in the nousehold. Sold everywhere. Small size, 37 cents; double size, 50 cents

All sufferers should examine the plan of guarantee, which insures a positive cure, or costs nothing for the trial. ## The Era of Revolutions.

If the jog-trot slaves of precedent and routine who flourished a century ago could now revisit the scenes of their former labors, how completely they would be taken aback by the wholesome innovations which modern skill, knowledge, and enterprise have made upon their musty precepts and purblind practice! In medicine, especially, we have got entirely out of the old worn-out grooves, and taken a new and more philosophical road to health.

The German School of Medical Chemistry is perhaps the most progressive and successful. It has repudiated the stereotyped potions of the past, and substituted in their stead a new class of alteratives and restoratives capable, it would seem, of working wonders. Prominent, perhaps foremost, among these stand the well-known household remedies-

HOOFLAND'S GERMAN BITTERS.

HOOFLAND'S GERMAN TONIO,

> AND HOOFLAND'S

PODOPHYLLIN PILLS.

They are the Greatest Known Remedies

For Liver Complaint, Dyspepsia, Nervous Debility, Jaundice, Disease of the Kidneys, Bruptions of the Skin, and all diseases arising from a Disordered Liver, Stomach, or IMPURITY

OF THE BLOOD.

These medicines have acquired a reputation exceeded by none, and when we see such names as those of Chief Justice Thompson, ex-Chief Justice Woodward, Justice Sharswood, Mayor Rogers, of Buffalo, New York, together with those of the leading clergy of the country, and prominent statesmen and citizens, appended to strong testimonials in favor of these popular preparations, we recognize the evidence thus volunteered as unimpeachable and conclusive. Such men do not give their sanction and approval to articles which they do not KNOW to be of sterling excellence, and therefore when they state through the columns of the press that HOOF-LAND'S GERMAN BITTERS is a valuable medicine in cases of Indigestion and Dyspepsia, "of great benefit in cases of Debility and want of Nervous action," and "a safe and valuable preparation for General Debility and Liver Complaint," we feel assured that they speak from actual EXPERIENCE and OBSERVATION, and with a due sense of the weight of their influence and of the words they

The testimony in relation to the TONIC, which ontains a stimulating element emitted in the Bitters, is equally satisfactory.

### Hoofland's German Tonic

Was compounded for those not inclined to extreme bitters, and is intended for use in cases when some alcoholic stimulant is required in connection with the Tonic properties of the Bitters. Each bottle of the Tonic contains one bottle of the Bitters, combined with pure SANTA CRUZ RUM, and flavored in such a manner that the extreme bitterness of the Bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtues of the Bitters. The price of the Tonic is \$1.50 per bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medicinal preparation should contain none but the best ingredients, and they who expect to obtain a cheap compound and be benefited will most certainly be deceived.

### Hoofland's Podophyllin Pill

Is also highly extolled and pronounced to be the most efficient Cathartic known to the Medical World, Being composed of the ACTIVE PRINCIPLE of Mandrake, in combination with other effective ingredients, they act more powerfully upon the Liver and Secretive Organs than any other Pills. Their operation is free from griping or nausea.

### Two Pills a Dose.

It does not require a handful of them to produce the desired effect. From personal experience and otherwise, we have no hesitation in saying that, taken in connection with the Bitters and Tonic, they will speedily cure the most severe and long-standing cases of Liver Complaints, Constipation, or any other derangements of the organs of digestion.

The Pills will Purify the Blood, will thoroughly cleanse the Liver of all unhealthy impurities, and relieve the Stomach and Bowels, while the Bitters or Tonic strengthens and adds new life to the entire system, enables the Stomach to digest the food, and transforms the sickly, emaciated, weak, and feeble body into one of health, strength, and vigor.

OTTAWA, July 16 .- The following is an extract from the instructions issued by the Government to commanders of gunboats and other officers employed in protecting Canadian fisherles:-

The limits within which you will, in the necossary exercise of your power, exclude United States fishermen, or detain American fishing vessels or boats, are for the present to be exceptional.

Difficulties have arisen in former times in respect to the question whether the exclusive limits should be measured on lines drawn parallel everywhere to that coast, and describing its sinussities or on lines produced from headland. to headland, across from headlands of bays, creeks, and harbors. Her Majesty's Government is clearly of the opinion that by the convention of 1818 the United States have renonneed the right of fishing not only within three miles of cotonial shores, but within three miles of a line drawn across any bay or creek. It is, however, the wish of her Majesty's Government neither to concede nor for the present enforce any rights in this respect which are in their nature open to any serious question.

Until further instructions, therefore, you will not interfere with any American fishermen unless found within three miles of the shore, or within three miles of a line drawn across the month of a bay or creek, which is less than ten geographical miles in width. In case of any other bay, as the Bay of Chalcurs for example, you will not admit any United States fishing vossel or boat, or any American fisherman inside of a line drawn across at that part of such bay where its width does not exceed ten miles.

The Globe, alloling to President Grant's message to Congress relative to the inconvenience which might be occasioned in the event of the North German mail steamers being blockaded by French war vessels, suggests that the transportation of American mails might be safely confided to Canadian steamers.
